

## Fund Outline

The Fund aims to maximise risk-adjusted total returns to investors by identifying and investing in a number of investment funds (underlying funds) with a focus on those assessed as having high potential. The Fund will be managed principally by adjusting the mix of underlying funds. Investing in underlying funds means the Fund can be exposed to a broad range of investments and asset classes. The goal is to manage the mix of underlying funds so as to obtain the combination of investment strategies that Bateau Asset Management believes will achieve the Fund's objectives. Initially the Fund was up to 100% invested in the Ddraig Equity Fund, an underlying unlisted fund domiciled in the Cayman Islands, committed to delivering compelling risk adjusted investment returns with a focus on opportunities across global equities.

- Long-dated **US treasury yields** were higher, with the 2-Yr yield at 5.07% and 10-Yr yield at 4.93%, amid a heavy slate of new corporate debt sales and supply concerns ahead of a series of three auctions despite U.S. Treasury announcing plans to slow the pace of increase in its quarterly long-term debt sales amid a widening fiscal deficit, announcing to sell \$112bn of longer-term securities at its quarterly refunding auctions.
- **European markets.** European markets were lower with the Stoxx Europe 600 Index down -3.7%, and both UK FTSE and German DAX down -3.8%.
- **Asian markets.** Asian markets were lower, with the Nikkei down -3.1%, KOSPI down -7.6%, and the Shanghai Composite down -3.0%.
- **Commodities.** Over the month, WTI oil price declined -8.8% to US\$81.02/bbl, as the U.S. move to suspend sanctions on Venezuelan oil, gas and gold paved way to bring more Venezuelan crude to the market in the months ahead. Saudi Arabia and Russia reaffirmed that they will stick with oil supply curbs of more than 1m barrels a day until the end of the year as a rally in prices falters.
- **ASX performance.** The ASX200 declined -3.8%, as RBA announced a growing number of Australian households are in the early stages of financial stress, while lenders remain in a solid position to absorb loan losses if needed.

### In political news:

- Tensions in Middle East flared up following a surprise attacks by the Palestinian Islamist militant group Hamas, from the Gaza Strip onto bordering areas in Israel, leading to retaliation by Israel by initiating an invasion of Gaza.

### In economic news:

- **Australian RBA decision.** RBA left the cash rate unchanged in October, however, resumed raising interest rates in November, increasing its cash rate to a 12-year high of 4.35% and revising up its inflation forecast slightly to 3.5% by end-2024.
- **U.S.** The US Fed held interest rates at a 22-year high of 5.25-5.5% for a second straight meeting, signalling conditions have tightened while noting they are yet confident enough to judge whether monetary policy is restrictive enough to bring inflation back to the 2% target.
